

# North Kootenai Water and Sewer District

June 2017

## ***Spring/Summer Office Hours***

Monday through Thursday  
6:00 a.m. to 4:30 p.m.  
Closed on Fridays.

## ***Irrigation Restrictions***

The District allows its customers to water their lawns anytime before noon and anytime after 6 p.m. Watering your lawn between noon and 6 p.m. is not allowed. This is the hottest and most inefficient time for lawn watering. The hot sun will actually evaporate a portion of the water before it is absorbed into the lawn.

## ***Update Phone Numbers and E-Mail Addresses***

Please let us know if your phone number, e-mail address, or mailing address is different than what is on your statement. Thank you for your assistance in our attempt to keep our records accurate.

*We will be closed  
Tuesday, July 4th  
in honor of  
Independence Day*

## ***Summer Construction Projects***

### *Rimrock Service Area:*

Beginning on or about June 20th, new water main extension on N. Government Way from the Car Lot north to the end of Government Way. Construction will take place on the west side of Government Way along the public right of way.

Beginning about July 10th, water main replacement on St. James from Kensington to Sherwood Court. Completion time to be 46 days from Notice to Proceed.

### *Chilco Service Area:*

Approximate start date June 20th. New water main and water services from Chilco Road into Moose Haven Estates. Construction will take place on private roads within the new subdivision.

### *Hillside Service Area:*

Beginning around June 20th through September, NKWD staff will be replacing individual water service lines and meters on Lookout Drive.

## ***Conserving Water in a Swimming Pool***

Here are some tips for conserving your swimming pool water.

1. Use a pool cover! You'll keep leaves and bugs out of the pool, and save thousands of gallons of water from evaporation.
2. When you clean the filters in your swimming pool or outdoor spa, make sure to direct the water you spray onto your lawn or other outdoor plants.
3. Keep your pool water cool. The warmer the water, the faster it evaporates.
4. Check your pool for leaks often. If you find a leak, get it fixed as soon as possible.
5. Keep your pool's water level low to reduce the amount of water lost to splashing.

*Have a fantastic and safe summer!*

Call 811 at least 48 hours before you dig at any depth, for any reason. Locates are free. Repairs are not.
