Questions? E-mail us at: contactus@nkwsd.com

Board Meetings ~ Meetings are held at our office on the 1st and 3rd Thursday of each month at 12:30 p.m.

Conservation Tip:

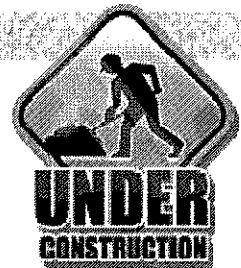

Keep a bottle of drinking water in the fridge. Running tap water to cool it off for drinking water is wasteful.

Winter is normally a time of minimum water usage. For most customers, the District is estimating your water usage over the winter months based on your historical averages. If you see water running, hear the sound of water escaping a pipe, or notice a spot that normally would be covered in snow and is now void of snow, call us. There might be a leak.

Construction Projects:

There are two winter projects under construction at this time. The first is the Springrock Booster Station improvements. We are currently waiting for delivery of the new booster pumps and the standby generator. This project should be finished in late January.

The second project is the new booster pump station at Echo Beach. This will replace the old wooden pump house. This project should be complete by the end of December.

Avondale/Pt. Hayden Water Line Replacement ~ This project is finished for the winter months. The remaining area of restoration is Hole #6 on the Avondale Golf Course. This will take place in the spring.

Some of you may experience differential settling of the ground around your meter boxes. Please let us know in the spring if this problem exists in your yard. We will have the contractor install some additional top soil or appropriate surface material in the spring.

Planning for 2011 Projects ~ The District plans to replace the remaining steel water lines in Avondale starting in the spring of 2011. Streets affected by the project include: Friar, Saxon, East Shore, Tudor Drive, St. James and Sherwood Court.

From the Field:

Digging ~ Remember, you must **call 811** before digging for any reason, at any depth, at least 48 hours prior to digging. If you don't, and you hit a utility, you may be billed for the repairs!

Locates Are Free, Repairs Are Not!
