Questions? E-mail us at: contactus@nkwsd.com

Board Meetings ~ Meetings are held at our office on the 1st and 3rd Thursday of each month at 12:30 p.m.

Conservation Tip:

Turn off the water after you wet your toothbrush, then turn on again to rinse. There is no need to keep the water running while brushing your teeth.

Winter is normally a time of minimum water usage. For most customers, the District is estimating your water usage over the winter months based on your historical averages. If you see water running, hear the sound of water escaping a pipe, or notice a spot that normally would be covered in snow and is now void of snow, call us. There might be a leak.

Construction Projects:

The **Echo Beach** pump house project is drawing to an end. Final items are being finished and the project should be up & running within two weeks.

The **Springrock Booster Station** renovation project: Tentatively scheduled for January 24th is the temporary conversion to gravity of all Rimrock users. The new pumps will be installed between January 24th and February 7th. Some residents north of Lancaster Road will experience lower water pressure during this period. A separate letter to households directly affected by this will be sent out on January 19th.

From The Office:

We have the following list of office equipment surplus that can be found on Craig's list for purchase or can be purchased at the office:

NEC MultiSync LCD Monitor, 1700V, SN2402272GA, \$20
