## **Revenue Bond Election**

The August 4th election results for the revenue bond are as follow:

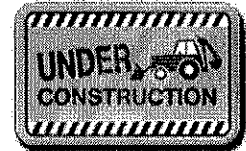

133 voted in favor of the revenue bond  
43 voted in opposition of the revenue bond

The District will now move forward with the production of construction plans and specifications for the critical upgrades to portions of our water systems. Actual construction will begin in 2010.

## **New Construction**

With the current economic conditions, the overall pace of construction in the District is lower than in recent years. However, there are several projects that are new in our area.

- ◆ **Walgreen's** is finishing its new store on the corner of Hwy 95 and Honeysuckle Avenue.
- ◆ A new commercial building for **Bio-Life** is under construction in the Cornerstone development area west of Hwy 95.
- ◆ **Wal-Mart** has executed a Construction Improvement Agreement with the City of Hayden. The City Council has approved the agreement. This paves the way for **Wal-Mart** to receive a building permit for their proposed Hayden Super Center.
- ◆ North Kootenai Water District will advertise for bids on August 18th for a new well house, related piping, and electrical for our **Hayden Well #2**. This facility is located across from the Hayden Post Office.
- ◆ A new subdivision, **The Falls at Hayden Lake**, is under construction. It is located in the Rimrock system on English Point Road and will consist of 46 lots. This subdivision will include off site improvements to the Spring Rock booster station which will be paid for by the Developer.

## **Other Items**

**Board Meetings** ~ Meetings are held at our office on the 1st and 3rd Thursday of each month at 12:30 p.m.

**Conservation Measures** ~ Just a reminder: Non-irrigation hours are Noon to 6:00 PM daily during the summer months. Please do your part to conserve water by watering your landscapes during the cool part of the day. Your plants will receive more water due to less evaporation!

**Digging** ~ Remember, you must **call 811** before digging for any reason, at any depth, at least **48 hours** prior to digging.

**Locates Are Free, Repairs Are Not!**
