

# Monitoring Violations Annual Notice – Template 3-1A

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### Monitoring Requirements Not Met for Gozzer Ranch

Our water system violated drinking water requirements over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we are doing (did) to correct these situations.

*\*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During September 2019, the system incurred a monitoring violation for not reporting all daily sampling for Turbidity and Chlorine from the treatment plant as required. The instrumentation issue has since been corrected.*

#### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the September 2019, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken.<sup>1</sup>

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were taken
Turbidity	Everyday	Daily	September 1-19 2019	September 20-30 2019
Chlorine	Every month	11	September 2019	Jan-Aug & Oct-Dec

#### What is being done?

Safeguards have been put in place to assure monitoring & samples will not be missed in the future.
